

## Larklands Infant and Nursery School Vision Statement

Our vision at Larklands is to provide a school where the children, parents, staff, governors and community work together to offer a welcoming, caring, stimulating and safe environment for every individual. We endeavour to celebrate all our achievements together, as a school community, each person being valued and respected.

The learning and well being of our children are central to all decision making at Larklands. Our aim is to provide a rich, varied, balanced and well resourced learning environment which will stimulate the natural creativity and curiosity of every child, whatever their ability, race, culture or gender.

Our intention is that the lives of all who leave Larklands will have been enhanced by their experience with us, and that each child will leave with the motivation and ability to continue their learning and be ready to meet whatever challenges lie ahead.
